EXECUTIVE PROFILE

Chartered Accountant (ICAI, 2022) and AI Product Manager with 6+ years (including articleship) across audit, corporate banking, finance transformation and product. Understands how a business runs end to end, from O2C, P2P and R2R to month-end close, consolidation and MIS, and sets up the processes and controls that make it faster. Works with CEOs, CFOs and founders in a Founder's Office role: finds what breaks, agrees the fix and builds it, from a **close cut from ~15 days to under half a day** and FP&A models to **products used by multiple clients** and **AI/ML fraud detection** for Deposit Return Schemes. Leads cross-functional teams of 20+; trained 1,700+ professionals.

CORE COMPETENCIES

Product Management: Problem discovery, market analysis, prioritisation, BRD and PRD, user stories, wireframes, MVP scope, Agile sprints, UAT and go-to-market, with prototypes built using AI coding agents (Claude Code, MCP).

Founder's Office & Teams: Works with CEOs, CFOs and founders on decisions; runs review cadences, governance trackers and change management; leads cross-functional teams of 20+ (AI/ML, development, QA, analysts, tech partners).

Finance, FP&A & Reporting: Month-end close, consolidation (eliminations, Schedule III), reconciliations, driver-based forecasts and budgets, cash runway and scenario analysis, unit economics, variable costing P&L, budget vs actual, variance analysis.

Process, Controls & ERP: Sets up and improves processes: AS-IS and TO-BE design across O2C, P2P, R2R, H2R and close; internal controls, PMO, RACI, SOPs, approval matrices; ERP lifecycle (CRP, UAT, data migration) on SAP, Oracle, ERPNext, Tally.

Audit, Tax & Credit: Statutory, tax and bank audits, GST and TDS, Ind AS, credit appraisal, working capital and covenant monitoring.

Training & Mentoring: **1,700+ professionals trained** in AI tools, Excel and Power BI; faculty for ICSI AI courses; Judge at ICSI AI4CS, Mumbai, evaluating participants' AI-built solutions; trainer at an ICAI study circle.

PROFESSIONAL EXPERIENCE

RECYKAL (Rapidue Technologies Pvt Ltd)

Hyderabad, India

AI Product Manager (Deposit Return Schemes) — **Jul 2026 to Present**

Own process improvement and gap identification across the **Deposit Return Scheme (DRS)** platform, plus fraud prevention, settlement logic and tender design and analysis. The platform has been pitched in Poland, Moldova and 2 other markets and is live for TASMAC (Tamil Nadu) and Goa's DRS.

- **Team Leadership:** Lead cross-functional delivery with **20+ people across AI/ML, development and QA teams** and guide **2 APMs**: run Agile sprints, assign and track work, walk developers through business flows, wireframes and finance logic, and own UAT and sign-off with scheme operators and leadership.
- **AI/ML Fraud Detection:** Defined the fraud detection flow logic and, with the AI/ML team, chose the modelling approach (**vector similarity and graph neural networks**); set expected outputs, reviewed the team's solution and deployment plan, resolved open questions and corrected the flow.
- **Fraud Prevention Design:** Mapped **58 fraud scenarios across 5 detection areas** with reactive controls (catch a fraud fast, learn the pattern), proactive controls (stop it before it happens) and a transaction simulator to test the rules; designed the case screens (Exception Hub, Entity 360, SLA monitor).
- **Finance, Settlement and Collections:** Defined refund, settlement and fee logic, treating **consumer deposits as liabilities, not income**, with unclaimed deposits and clawbacks; set up reconciliations of claims to payouts, counter vs centre counts and reverse vending machine (RVM) data vs physical bags.
- **Gap Identification and Tender Analysis:** Mapped DRS flows end to end to find process and platform gaps, tested with self-built Flowchart Studio (process maps) and TestKit (role-based checks); analysed the **Moldova national DRS tender** and built a time-bound, prioritised plan.

CONTETRA PVT LTD

Mumbai, India

Assistant Manager (Finance & Digital Transformation | Founder's Office Execution) — **Jan 2025 to Jun 2026**

Client-facing lead and project manager across **15 engagements** (INR 50 Cr to 1,200 Cr annual turnover) in Manufacturing, EPC, Trading, D2C, e-commerce, QSR, Pharma, Renewable Energy, IT, SaaS; owned diagnosis, solution and delivery, led teams of 15+ and presented to CXOs and founders.

FP&A, CXO DASHBOARDS AND DECISION SUPPORT

- **Financial Close and Consolidation Tool:** Built alone in under a month (**Excel, VBA, Power Query**) for **21 branches in 15 states**: consolidates trial balances with **intercompany and branch eliminations** into financial statements; close fell from **~15 days to under half a day** and scaled to multiple clients.
- **Fractional CFO and FP&A Models:** As fractional CFO for Contetra clients in SaaS, trading and e-commerce, built automated, driver-based models for their CEOs and CFOs (forecast, budget, unit economics, working capital, scenarios, **cash runway for fundraising**), refreshed into Power BI.
- **Management Reporting and Dashboards:** Built Power BI MIS for the CEO, CFO, CXOs and department heads (cost sheets, variable costing P&L, budget vs actual, vertical-wise performance, operational KPIs), drilling down from headline to ledger so the drivers behind each variance are visible.

FOUNDER'S OFFICE / CHIEF OF STAFF EXECUTION

- **PMO for an INR 600 Cr EPC Enterprise:** Ownership, costs, delays and collections were unclear. Built a PMO from scratch (WBS, RACI, SOPs, approvals, project accounting, billing, revenue recognition) and led its adoption by the founders, removing bottlenecks and giving cost and delay visibility.
- **AS-IS to TO-BE Design:** Led **5 diagnostic engagements** across CRM, O2C, P2P, R2R, H2R, master data, close, GST/TDS, reporting and controls, exposing ERP gaps and ownership issues; agreed the fixes with the founders and designed TO-BE operating models, SOPs and approval matrices.
- **O&M Billing Redesign:** For a water treatment client, resolved manual confirmations, billing disputes, ERP gaps and Excel double entry, cutting the billing cycle from **25-30 days to 7 days** and speeding up collections.

CONTROLS, DIAGNOSTICS & OPERATING DESIGN

- **Control and Governance Layer:** Set up post-ERP data validation, reconciliation frameworks, process governance trackers and automation roadmaps; diagnosed and rebuilt a stalled Power BI project, delivering it on time with client sign-off.
- **ERP Lifecycle Delivery:** Turned finance and operations requirements into ERP workflows and supported CRP sessions, scenario definition, UAT design, statutory validation and data migration checks.

PRODUCT DEVELOPMENT: IDEA TO MARKET

- **Two Products, Used by Multiple Clients:** Turned recurring gaps seen across client diagnostics into two products and owned them end to end, from ideation, market analysis, white paper, BRD and PRD to user stories, wireframes, MVP, testing, UAT, client demos and go-to-market; built working modules with AI-assisted coding.
- **Product Scope:** A P2P and Vendor Management product (vendor onboarding, approvals, purchase-to-pay and payment tracking where the ERP fell short) and a Revenue Assurance product for project businesses (contracts, WBS, milestones, multi-type billing, invoicing, reconciliation).
- **AI Assistants for Delivery:** Designed custom AI assistants (GPTs and Gemini Gems) for ERP implementation support, wireframe generation, reconciliation and delivery standardisation across engagements.

IDFC FIRST BANK — **Pune, India**

Associate Relationship Manager (Corporate Banking; promoted from Credit Analyst, Apr 2024) — **Mar 2023 to Jan 2025**

- **Credit Appraisal:** Owned credit analysis and relationships for **20+ corporate clients** (Manufacturing, Renewable Energy, Automobile), including large-cap listed manufacturers and top-tier automotive majors; presented Credit Appraisal Memoranda to credit committees, resulting in sanctioned facilities.
- **Risk and Financial Modelling:** Built financial models, forecasts and scenario templates for facility structuring, with industry benchmarking, working capital analysis and covenant design and monitoring to flag early borrower risk; worked directly with client CFOs to validate business model assumptions.

RB SHARMA — **Chhatrapati Sambhajinagar, India**

Article Assistant — **Feb 2020 to Feb 2023**

- **Audit and Compliance:** Executed statutory, tax and concurrent bank audits across Manufacturing, Pharma, Hospitals, Media and Construction: audit documentation, financial statements, income tax computations and GST compliance (GSTR-1/3B/9/9C, refunds, litigation support).
- **Automation and Recognition:** Built Excel/VBA reconciliation tools (~50% efficiency gain); trained 100+ professionals on Excel, VBA and Tally; won the **Star Performer and Best Article awards**.

EDUCATION, CREDENTIALS & TOOLS

Chartered Accountant: **Institute of Chartered Accountants of India (ICAI)** | Nov 2022 | **5th Rank, Chhatrapati Sambhajinagar**, first attempt

Certifications: AI Fluency (Anthropic); Ind AS (CRISIL)

Finance & ERP Tools: Power BI, Excel, VBA, Power Query, Power Automate, Tally, SAP ECC and S/4HANA, Oracle, ERPNext.

AI & Build Tools: Generative AI, AI agents, prompt engineering, MCP, Claude Code, Claude, Gemini, ChatGPT, AI-assisted coding, JIRA.

Company Secretaries: **ICSI AI4CS faculty** (400+ CS in Indore, 100+ in Thane); built the **AI for CS Masterclass** (13 modules, live demos, exercises, practice company files) and an offline **CS Compliance Command Center**: ROC and SEBI LODR deadlines, director disqualification risk, penalty exposure and RPT approvals (Sec 188, Reg 23).
